SPRING NINETEEN TWENTY-THREE

Trade List

OF THE

PRINCETON NURSERIES

Princeton, New Jersey

WM. FLEMER'S SONS, Proprietors

FOR NURSERYMEN AND DEALERS

Nursery location midway between New York and Philadelphia at Kingston Station on the Rocky Hill Branch of the Pennsylvania Railroad. Siding at packing shed and cellar enable bulk shipments to be packed with the least possible exposure.

We usually commence digging and shipping about the first of March, continuing into May.

PHONE MONMOUTH JUNCTION 242

NOTICE TO CUSTOMERS

We would say to those unacquainted with us that we have 275 acres devoted to the business; our methods of growing and handling stock are up-to-date. We solicit correspondence and personal inspection of our stocks, confident that it will compare favorably with the best.

REFERENCES—For those who do not know us we refer to any leading nurserymen in the United States, Dun and Bradstreet's Mercantile Agencies.

PRICES—This list is intended for nurserymen and dealers only, and supersedes all previous editions. We have tried to make our prices as low as we think well-grown stock should be sold. We expect, however, to sell on the market and meet reliable competition.

TERMS—We are glad to grant 30 to 60 days time for payment of bills to all responsible parties, but parties we do not know, who have no commercial rating, must send remittance with order, or a guarantee signed by some bank or someone of known responsibility to be sure of securing goods selected. If references are sent, we will confer with them and after hearing favorably if goods selected are still unsold, we will enter them as requested, but we will not enter orders or ship goods until we know the customer is responsible.

We will not hold goods on inquiries.

For convenience and economy in ordering by wire, a telegraph cypher is attached to each article.

PACKING—This is done in boxes and bales for which a charge is made sufficient to remunerate for the cost of material only. Trees packed in bulk at no extra charge. A certificate of inspection from the state Entomologist will accompany each shipment.

COMPLAINTS—Should there be any reason for complaint, we must be notified on receipt of goods, otherwise we cannot entertain it. We make it a point to give all reasonable claims proper consideration.

ORDERS—Are accepted upon condition that they shall be void should any injury befall the stock from frost or other cause over which we have no control.

GUARANTEE OF GENUINENESS—While we exercise the greatest care to have all our trees and plants genuine and reliable, and hold ourselves prepared to replace on proper proof all trees that may prove untrue, we do not give any warranty expressed or implied; and in case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the stock.

We guarantee all our stock to be in good condition on leaving our hands, but we do not guarantee it to grow under all conditions, nor do we make up any loss whatever due to climate effects or after culture on the part of the purchaser and the risks of transportation are to be borne by purchaser. When losses occur by detention, claims should be at once made on forwarders.

BOXING—Boxing cost is charged on following basis:

31 in. x 36 in.—10 ft. long.....	\$6.00
28 in. x 32 in.—10 ft. long.....	5.50
23 in. x 28 in.—10 ft. long.....	5.00
19 in. x 24 in.—10 ft. long.....	4.00
17 in. x 20 in.—10 ft. long.....	3.75
15 in. x 16 in.—10 ft. long.....	3.25
12 in. x 15 in.—10 ft. long.....	2.75

Add 50 cents for each additional 2 feet of length.

Decreases are in the same proportion, 50 cents for each 2 feet.

DECIDUOUS SHRUBS

The shrubs we offer are of standard commercial grade, young and thrifty. They are not crowded in rows to make them grow tall, but are given space enough for proper development. This insures a bushy and full plant, which far more than height ought to be, and indeed is, the standard of excellence. Nearly all our shrubs are dug with a tree digger, thus insuring good roots, and are exactly what we represent them to be in all particulars.

CONIFERS AND EVERGREENS

Our evergreens are of the highest quality. They have all been transplanted, most of them several times, giving ample room for full development and frequently sheared to produce compact, symmetrical specimens. All balled and burlapped at the prices named except where marked with an*.
